

AJAY JEEVAN JOSE

AI/ML Engineer

Kerala, India | ajayjeevanjose17@gmail.com | +91 9747956617

PROFESSIONAL SUMMARY

AI/ML Engineer with 3 years building and shipping production GenAI systems for regulated pharma and life sciences. Builds multi-agent LLM pipelines, RAG and hybrid retrieval (BM25 + dense, reranking) with LangGraph, LangChain and MCP, with a focus on LLM evaluation: catching hallucination and failure modes before they ship. Ships end to end on FastAPI, Node.js, React and Azure/GCP under FDA 21 CFR Part 11, GxP, EMA and ICH.

WORK EXPERIENCE

Rudhra Info Solutions

Apr 2026 – Present

Artificial Intelligence Engineer | Chennai, Tamil Nadu

MLR Review – AI-Assisted Medical/Legal/Regulatory Compliance | Python, RAG, Multi-Agent LLM, Weaviate, Veeva Vault Web SDK, React, Docker, GCP

- Built a RAG-grounded, 4-stage async multi-agent pipeline with 50+ pluggable agents with over 400 compliance-checks that validates pharma promotional claims against approved sources, delivered as a Veeva Vault custom page.
- Architected an anti-hallucination layer that verifies every LLM-cited quote against retrieved source text, with automatic fail-safes on unverifiable or cross-product evidence.

Sciagen CMS – Pharma Content Management & Compliance Platform | Node.js, TypeScript, PostgreSQL, AWS S3, Azure Blob, Docker, GitHub Actions

- Built a multi-tenant compliance workflow platform with e-signature approvals and hash-chained audit logging; migrated it from SQLite to PostgreSQL across 70+ migrations with zero data loss.
- Built an MCP server exposing compliance data as agent tools, plus AI claims harvesting on the Anthropic API; CI/CD backed by 1,000+ automated tests.

Enterprise CRM AI Assistant | Python, LangGraph, MCP, Chrome Extension, Streaming

- Built a Chrome side-panel AI assistant where a six-layer intent pipeline (regex, embeddings, small LM) routes requests to a LangGraph orchestrator over MCP tools, with human approval gates and token streaming.

Compliance & Document Intelligence (Multi-Agent) | Weaviate, Neo4j, BM25 + Vector, Cross-Encoder Reranking

- Built multi-agent systems for SOP/URS drafting, regulatory validation and impact analysis under FDA 21 CFR Part 11, GxP, GAMP 5 and EU Annex 11.
- Built hybrid BM25 + vector retrieval with cross-encoder reranking on Weaviate and a Neo4j document reference-mapping pipeline.

Qualitest Group of India

Mar 2024 – Mar 2026

Engineer, AI/ML | Hyderabad, India

Enterprise ML Pipelines (Azure) | Azure ML Studio, Azure Synapse, Azure DevOps, Power Query, Python

- Built ML pipelines on Azure ML Studio and Synapse for unstructured-data extraction, classification and analytics, and automated Azure DevOps test-data extraction with Power Query M-code.

Document Indexing & Knowledge Assistants | Docker, Vector Search, Agentic Retrieval, Prompt Engineering

- Built Dockerized document-indexing services with vector search and agentic retrieval, and tuned the prompts powering internal knowledge assistants.

LLM Testing & Evaluation Framework | Adversarial Probing, Jailbreak Detection, Model-Graded Evaluation

- Built adversarial probing and jailbreak-detection suites plus model-graded evaluations to stress-test chatbot safety and response quality.

Agentic AI Platform | gRPC, Plug-and-Play Agent Framework, Agent Registry

- Built a plug-and-play agent framework with gRPC inter-agent communication and a public agent registry for cross-team reuse.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript

AI / ML: LangChain, LangGraph, LlamaIndex, MCP, Anthropic API, Azure OpenAI, CrewAI, Hugging Face, Ollama, Sentence Transformers, RAG, Hybrid Retrieval (BM25 + Dense), Reranking, Graph RAG, Agentic AI, Prompt Engineering, LLM Evaluation

Backend & Web: FastAPI, Node.js, Express, Pydantic, async SQLAlchemy, Celery, Next.js, React, REST APIs, JWT, RBAC/ABAC, Microservices, gRPC

Cloud & Data: Azure AI, AWS Bedrock, GCP, Docker, Kubernetes, GitHub Actions, PostgreSQL, Redis, Weaviate, OpenSearch, Neo4j, Qdrant, Pinecone, pgvector, FAISS

Domain: FDA 21 CFR Part 11, GxP, GAMP 5, EU Annex 11, EMA, ICH, SOP/URS, Veeva Vault

EDUCATION

Master of Computer Applications (MCA), Government Engineering College, Thrissur – 81%

2023

B.Sc. Physics, CKGM Government College, Perambra – 66.3%

2020

CERTIFICATIONS

- Intro to Model Context Protocol (Anthropic)
- Claude Code in Action (Anthropic)
- AI Engineer Core Track: LLMs, RAG, QLoRA, Agents (Udemy)
- Azure DevOps (Udemy)
